& PARTICIPATION**

REFRESHER COURSE

The Ministry of Education (erstwhile, Ministry of Human Resource Development) launched the Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNTT) in 2014. One of the main objectives of this mission is to facilitate teacher training by constituting Teaching Learning Centers in various institutions of higher education in our country. The Teaching Learning Centers (TLCs) are mandated to promote on a continuous basis the learning of new pedagogical practices, methodology of forming discipline-specific curricula and creating new learning materials (including e-content) for use by the teachers in colleges and postgraduate departments. It is envisioned that the TLCs will accelerate the teaching-learning process by encouraging independent critical and creative thinking and facilitating research for subject specific growth. The TLCs will assist the faculty in capacity building for curriculum designing, scientific assessment and evaluation and the development of innovative academic programs to strengthen the inclusive nature of higher education. The TLCs are also encouraged to reach out to teachers teaching in regionally disadvantaged locations. The Pandit Madan Mohan Malaviya National Mission emphasizes the need to change the role and workings of a teacher from a mere disseminator of information and knowledge to the one who helps students to develop critical, analytical skills, capabilities to generate information, the ability to reason and to empower themselves through open sources and globally oriented digitalized self-learning processes. The focus is not only on 'what is taught' but also importantly, to 'the way it is taught,' in an effort to develop and enhance individual education, that will eventually go on to define the manner in which the future generations will work and live. T

The Teaching Learning Centers offer Faculty Induction Programs (FIPs) for newly recruited faculty and Faculty Development Programs (FDPs) for teachers with experience who wish to update their field of knowledge, expertise and skill with the latest available research, resources and technology. In the FDPs, special emphasis is given to inter and cross-disciplinary methodologies of study.

University Grants Commission (UGC) has intensified its efforts to have a strong virtual engagement with the students through email/social media platform and hosting lectures using Google Class Room and other video-conferencing platforms. Keeping in view the immense benefits and reach of online courses in the present academic set-up, the Teaching Learning Centre Ramanujan College, University of Delhi is offering a Two-week Refresher Course in Commerce and Management for faculty members and research scholars of higher education in the country.

CONCEPT NOTE

This Refresher Course aims to disseminate the new developments and contemporary research in Commerce and Management. The cutting-edge researches that are taking place in this field are phenomenal and should reach the concerned stakeholders. The business discipline is vast and enriched with multiple philosophies and theories. These theories have been able to guide practitioners in the past century and the present. The roles, as well as the assumptions, are now changing fast. Some of the premises and postulates need revisiting. Additionally, some recent developments like taxation laws, GST, and IFRS have changed how businesses operate.

Financial technology under Information and Communication Technology reforms have drastically enhanced business operations. The integration of Fintech with business has the potential for the companies to improve their use and delivery to consumers. These innovations are exciting and place the onus on the existing practitioners, especially the instructors, to augment their knowledge continuously.

Therefore, in this two-week refresher program, we would invite academics and practitioners to share their views and expertise with the participants. The purpose of this course will be to train teachers on present-day methodology and how they can use it to augment their teaching and research. The participants will be made aware of the current developments in some of the disciplines of finance, taxation laws, marketing, accounting, human resource management, business research, to name a few.

THEMATICS

- Current advances in business research
- Updates on Taxation laws and regulations
- Recent developments in accounting and IFRS
- Research paper publication process in business research
- Impact of ICT on Commerce/E-commerce
- Financial Modelling in Business
- New Avenues of Research in Management disciplines
- Case study method in pedagogy
- Entrepreneurship and skill enhancement
- Business ethics
- NEP 2020 and Higher education

ABOUT RAMANUJAN COLLEGE

Ramanujan College is a University of Delhi college, located in the well-known area of Kalkaji, near Nehru Place, in South Delhi. Ramanujan College has highly qualified, dedicated, and committed faculty members. The college runs 16 courses in different subjects in Humanities, Commerce and Science streams.
