Quality assurance and performance enhancement in higher educational institutions is the call of the day. Therefore, all institutions must get ready to face the challenges in this new era. Educational institutions are looking forward to guidance/advice from experts in the field of academics and administration. NAAC gives individual institutions the right direction, along with the impetus to move forward and with the right kind of alignment needed with the industry, corporate, research organizations, and the general community. Besides, the NAAC involves the systematic review of educational programmes and processes to maintain and improve their quality, equity, and efficiency. Quality assurance is essential for accountability and support the respective ongoing development of HEIs and their teaching, learning, research, and other relevant activities.

This FDP aims to bring together leading academicians, researchers, and scholars to share experiences, opinions on quality assurance, and the emergence of a new economy.
