RAMANUJAN COLLEGE

Ramanujan College is a constituent College of the University of Delhi (DU). It is inspired by the life and work of Srinivasa Aiyangar Ramanujan, one of the world's greatest mathematicians. The College has been accredited Grade "A++" by the National Assessment and Accreditation Council (NAAC) in its Second Cycle. At present, it offers sixteen undergraduate programmes in different disciplines. In pursuit of its vision: "Discover, Empower, Transform: Building A Better World", Ramanujan College is today perceived as one of the best colleges in the country.

CENTRE FOR HUMAN RIGHTS & ENVIRONMENTAL STUDIES

The Centre for Human Rights Studies was established in February 2015. The Centre coordinates a three-month UGC-Sponsored Certificate Course on Human Rights. It was also notified as the National Resource Centre by the Ministry of Education. The classes are held only on Sundays. Eminent resource persons are invited to deliver lectures on the prescribed syllabus. Participants will be given graded Certificates after the successful completion of the course. The Centre for Human Rights Studies endeavors to mitigate this predicament with a resolve to reach out to the undergraduate students and impart them the right orientation to carry forward the essence of human dignity for the generations to come. Our mission is Light on Rights – just like a candle that has the potential to light up thousands of candles.

ABOUT THE PROGRAMME

Since the emergence of natural rights, human rights have been a significant concern of society. Human rights are inherent to all human beings regardless of gender, race, culture and ethnicity, colour, nationality, religion etc. These are based on common values such as dignity, fairness, equality, respect and independence and include freedom of speech, privacy, health, life, freedom, security and a decent standard of living. However, sometimes the rights themselves can conflict, for example when one person's commitment to public safety conflicts with the freedom of expression of others. Nevertheless, quality education and awareness around human rights issues can assist in the development of values of tolerance and respect for others. Presently, both National Governments and International Institutions cannot deny the importance of human rights in its various manifestations – political, social, economic, cultural and environmental and aim to promote them through various programmes. The aim of these programmes is to promote understanding, tolerance and friendship between nations, racial and religious groups and to promote the activities of the United Nations to maintain peace.
